## II-Merill 31—2005

---

*II-Merill* is the ornithological journal of **BirdLife Malta**. It serves as a medium for the publication of articles and short notes dealing with any aspect of ornithology having a bearing on the Maltese Islands and the Mediterranean. It also carries systematic lists of birds recorded in the Maltese Islands as well as bird ringing reports.

Articles and short notes for publication should be addressed to:

### The Editorial Board

BirdLife Malta  
57/28 Abate Rigord Street, Ta' Xbiex MSD 12, Malta

### Advice and instructions to contributors

Authors are required to submit TWO copies of their contribution, which should be typed or printed only on one side of paper. Articles / short notes should be double-spaced throughout, and wide margins should be left all around the text, including at least 4 cm on the left-hand margin. All pages, including notes, references and tables, should be numbered. Tables and diagrams must be properly titled and numbered consecutively in the order in which they are to appear in the text; each table / diagram should be prepared on a separate page or separate pages at the end of the typed or printed article and its approximate position in the text should be indicated (e.g., 'Table 1 about here').

Information contained in the contribution should be original and based on personal research except where otherwise indicated. The main text should be concise. Authors of major articles are required to include an abstract of their article of up to 120 words. A detachable sheet on one copy of the article / short note should carry the author's name, university and / or home address, telephone number, and email address. The Editorial board does not undertake to return rejected manuscripts.

Textual references must follow the format contained in the following examples:  
As Dollard (1957) argues; Dollard's (1957) study; (Dollard 1985); (Dollard 1985, pp. 23-6).

Citation of references must follow the format contained in the following examples:

BIRDLIFE MALTA was founded as The Malta Ornithological Society (MOS) in 1962 to work for the protection and study of birds and their habitats in Malta. BIRDLIFE MALTA is a partner of BirdLife International and it is the oldest and largest environmental NGO in the country. Among its commitments, the Society co-ordinates a research group to carry out bird studies in Malta. The group also runs the Valletta Bird Ringing Scheme, which is a member of EURING. BIRDLIFE MALTA publishes a bimonthly Newsletter *BirdTalk* and its annual review *Bird's Eye View* for its members. It has a junior section Klabb Huttfa, with its own activities and a bimonthly magazine *II-Huttfa*. BIRDLIFE MALTA manages two nature reserves – Ghadira and Is-Simar.

## Systematic List 1996-1999

Compiled by

Edward Bonavia, John J. Borg, Caldon Mercieca & Joe Sultana

This list of birds occurring in the Maltese Islands during the years 1996-1999 has been compiled from the observation records, which were submitted by several observers, as well as from the daily log of birds of the nature reserves at Ghadira and Simar. The regular contributors for the 4 years under review were John Attard Montalto, Edward Bonavia, John J. Borg, Denis Cachia, Alex Casha, Charles Coleiro, Raymond Galea, Charles Gauci, Mario V. Gauci, Mark Gauci, John Grech, Manuel Mallia, Joseph M Mangion, Michael Sammut, Joe Sultana, and Louis Vella. Other contributors were David Attard, Ian Balzan, Norman Bonavia, Richard Cachia Zammit, T. Cantwell, Norman Chetcuti, Victor Cilia, Mark Anthony Falzon, Caldon Mercieca, John Middleton, Julian Moulton, Ian Mifsud, Marvic Sammut, Simon Suda, Mark Sultana, Justin Vassallo and Ray Vella.

Various members contributed their records through the Birders Diary Programme, which is co-ordinated by Manuel Mallia. Records of species, which have appeared less than twenty times in the Maltese islands, and which are appearing in this list have been controlled by John Attard Montalto Co-ordinator of the Rarities Committee.

The sequence and the scientific nomenclature of the last systematic list, which covered the years 1993-1995 and which was published in 1999 (*Il-Merill* 29: 30-57) followed those adopted by the Concise Edition of Birds of the Western Palearctic (Snow & Perrins 1998). Since then there were several taxonomic developments due to the publication of various phylogenetic studies. The British Ornithologists Union (*Ibis* (2002), 144:707-710) recommended, amongst others, a new taxonomic order, in which Anseriformes and Galliformes are placed at the start of the list, as well as correcting the spelling of various scientific names (e.g. Whiskered Tern *Chlidonias hybrida* and not *C. hybridus*; Firecrest *Regulus ignicapilla* and not *R. ignicapillus*). Since then other modifications and corrections in scientific names (*Ibis* (2004), 146: 153-157; and *Ibis* (2005), 147: 821-826) were also recommended (e.g. a reappraisal of the taxa of *Aquila* and *Hieraaetus* recommended that Booted Eagle should be treated as *Aquila pennata*; that Skuas should be treated as a single genus (Great Skua is now *Stercorarius skua*); and that Yellow-Legged Gull *L. michahellis*, Armenian Gull *L. armenicus* and Herring Gull *L. argentatus* are best treated as three separate species). Changes in the generic limits of terns and swallows have also been made. These have put Little Tern with the genus *Sternula*, Caspian Tern with *Hydroprogne*, Gull-billed Tern goes back to *Gelocheilidon*; and Red-rumped Swallow with genus *Cecropis*. Other changes include the correction of scientific names: House Martin is *Delichon urbicum* not *D. urbica* while Stonechat is *Saxicola torquatus* not *S. torquata*. The sequence of the genus *Sylvia* was changed starting from Blackcap *Sylvia atricapilla* and ending with Sardinian Warbler *Sylvia melanocephala*; while Corn Bunting is back with the genus *Emberiza*. In compiling this list we have taken up these recommendations, which are becoming widely adopted.

The English names used in the last systematic list were those adopted by *British Birds* in 1993 (*Brit. Birds* 86: 1-2). Unfortunately some of these 'new' English names did not become widely used even in Britain. Some names such as 'Hedge Accentor', 'Rufous Nightingale' and 'Rufous-tailed Scrub-robin' were completely ignored so much so that after 11 years *British Birds* felt it was appropriate, particularly in view of all the taxonomic development, to review and update the list of English names (*Brit. Birds* (2004) 97: 2-5). We are here following this reviewed and updated list, which can be found and down-loaded from [www.britishbirds.co.uk](http://www.britishbirds.co.uk) (the *British Birds* Website). Thus, amongst others, Levantine Shearwater is now Yelkouan Shearwater, Hedge Accentor goes back to Dunnock, Rufous Nightingale changes its adjective to Common, Rufous-tailed Scrub Robin becomes Rufous Bush Robin, etc.

For those species, which did not appear in all the 4 years under review, the year during which a species has not been recorded has been omitted. (M) or (G) following a place name refers to Malta and Gozo respectively.

### White-fronted Goose *Anser albifrons*

1999: 1 wounded juv at Ghadira from 17-19 Nov (found dead on 20 Nov).

### Greylag Goose *Anser anser*

1997: 2 at St. Elmo Pt. on 18 Oct, 4 on 23 Nov and 1 on 10 Dec at Qawra.

1999: 2 at Ta' Gajdor (Xaghra, Gozo) on 9 Dec accompanied by a smaller grey goose sp. Another 6 unidentified grey geese were seen at Qawra on 25 Nov.

### Common Shelduck *Tadorna tadorna*

1996: 9 at Qammieh on 11 Mar. Singles at Qawra on 10 Aug and Ghadira on 29 Sep; then 2 at Qawra on 5 Oct, 1 at Ghadira on 15 Nov and 10 on 25 Nov and 6 on 29 Nov, both at Qawra.

1997: 1 at St. Elmo Pt. on 5 Jan. Then 26 on 3<sup>rd</sup> and 11 on 17 Nov, and 1 on 7<sup>th</sup> and 13 on 10 Dec all at Qawra, followed by 1 at Ghadira on 15<sup>th</sup> and 25<sup>th</sup>, and 2 at Ghallis, 11+ at Qawra and 7 at Simar on 26<sup>th</sup> all in Dec.

**1998:** 6 on 14<sup>th</sup> and 1 on 21 Mar, both at Qammieh. In autumn, 4 at Tighe' on 14<sup>th</sup>, 24 at Qawra on 24<sup>th</sup>, 45 at Qawra and 20 at Sliema on 28<sup>th</sup> all in Oct, and 106 at Qawra on 10 Nov. Then 1-2 at Qawra on 12-13<sup>th</sup> and 1 at Salina on 26 Nov. In Dec 59 on 7<sup>th</sup> and 12 on 8<sup>th</sup> both at Qawra and 1 at Ghadira also on 8<sup>th</sup>.

**1999:** 11 at Qammieh on 31 Mar. 1 at Qawra on 28 Oct, then up to 13 at Qawra and Ghadira on 10 dates from 13 Nov to 13 Dec but 27 at Qawra on 5 Dec. 1-3 almost daily at Ghadira from 22 Dec to end of year but 7 on 27<sup>th</sup>.

#### **Eurasian Wigeon *Anas Penelope***

**1996:** 3-4 at Ghadira from 1 Jan till 11 Mar; then 15 off Qammieh on 14 Mar. 1 at Ghadira on 18 Sep, then 1-4 there on most dates from 5 Oct till end of year. At Simar, 1 on 10 dates from 13 Oct to 22 Dec. Outside reserves in autumn seen only once: 2 off Qawra on 30 Nov.

**1997:** Singles present at Ghadira from 1 Jan to 17 Mar and at Simar on 4-5 Jan. Then 6 on 15<sup>th</sup> and 5 on 22 Mar at Qammieh. In autumn on passage on 5 dates from Qawra: 15 on 17<sup>th</sup> and 70 on 19 Oct, 42 on 17<sup>th</sup> and 13 on 19 Nov and 4 on 12 Dec. At Ghadira singles were present on 19 Oct, 16-17 Nov and from 14 Dec till end of year, but 2 on 8 Dec. Other records were singles at Wied ir-Rihan on 22 Oct, and at Simar on 28 Dec.

**1998:** 1 at Ghadira from 1 Jan to 7 Mar and 2 at Qammieh on 21 Mar. 1 at Ghadira on 15<sup>th</sup>, 12 at Qawra on 27<sup>th</sup>, 29 at Qawra and Sliema on 28<sup>th</sup> and 1 at Qawra on 31 Oct. Then on 10 dates in Nov (highest 80 on 4<sup>th</sup>, 109 on 9<sup>th</sup> and 112 on 10<sup>th</sup>, otherwise up to 11) and on 5 dates from 6 to 12 Dec (highest 26 on 6<sup>th</sup>, 42 on 7<sup>th</sup> and 20 on 8<sup>th</sup>) all at Qawra.

**1999:** Singles at Ghadira from 2 to 28 Jan and from 8 to 21 Oct. Then 25 on 28<sup>th</sup> and 50 on 29<sup>th</sup>, both at Qawra and 1 at Ghadira on 30 Oct, followed by 6 dates at Ghadira and Qawra from 24 Nov to 1 Dec, mainly up to 5 but 19 on 24<sup>th</sup> and 16 on 29 Nov and 20 on 1 Dec, all at Qawra. 1 at Ghadira on 2-5 Dec.

#### **Gadwall *Anas strepera***

**1996:** 1 at Ghadira on 18 dates from 14 Nov to 21 Dec.

**1997:** 2 at Ghadira on 10<sup>th</sup> and 7 at Qawra on 21 Nov, then 1 at Ghadira on most days from 14 Dec till end of year.

**1998:** Singles at Ghadira from 1 Jan to 3 Mar and at Simar from 24 Oct to 6 Nov. Then 10 on 7 Nov and 13 on 7 Dec, both at Qawra. 1 at Simar on 10 Dec.

#### **Eurasian Teal *Anas crecca***

**1996:** 1-9 at Ghadira from 1 Jan to 6 Apr, and up to 8 at Simar from 2 Jan to 24 Mar. 2 at Ghadira on 25<sup>th</sup> and 1 at Simar on 30 Aug; then 1-2 regularly at Ghadira from 28 Sep to 27 Nov and 1 at Simar on 20-21 Sep and from 13 Oct to 9 Nov. Latest sightings: 2 at Ghadira on 22<sup>nd</sup> and 1 also at Ghadira and 2 at Simar on 28 Dec. Outside reserves seen only once: 1 at Dwejra (G) on 17 Nov.

**1997:** Up to 4 at Simar on most days in Jan to 25 Mar and up to 3 at Ghadira almost daily from 5 Jan to 19 Mar. Then 3 at St. Elmo Pt. on 23 Aug. At Ghadira 3 on 23 Sep, then singles on 6 Oct, on 25-26 Nov and on 7 dates from 6 to 26 Dec, but ca. 6 on 13<sup>th</sup>. Up to 3 on 5 dates at Simar from 16 to 30 Dec. Other records were 10 at I-Ahrax on 15 Nov, and 1 at Qawra on 9 Dec.

**1998:** 1-2 at Simar from 1 to 26 Jan. Singles at Ghadira on 2 Jan and 18 Jan, then 2 from 31 Jan to 3 Mar. 5 at Simar on 25 Sep with 1 remaining till 30 Sep. On 11 dates in Oct, highest 12 at Qawra on 24<sup>th</sup> and 11 at Sliema on 28 Oct, otherwise up to 7. 17 sightings on 13 dates in Nov, max 15 at Qawra on 10 Nov, otherwise up to 6. In Dec, 4 at Ghadira and 1 at Qawra on 7 Dec, 10 at Simar on 10 Dec and 1-2 on most days at Ghadira and Simar till 24 Dec.

**1999:** 1-2 on 33 dates at Ghadira and Simar from 2 Jan to 7 Mar. Singles at Simar from 16 to 23 Oct, 7 at Qawra on 28 Oct and 1 at same place on 19 Nov, then up to 6 at Ghadira almost daily from 19 Nov to end of year. 3 at Simar on 2-3 Dec.

#### **Mallard *Anas platyrhynchos***

**1996:** 2 at Ghadira from 2 Jan to 11 Mar.

**1997:** 2 at Qawra on 13 Nov.

**1998:** Singles at Simar on 22 Aug and at Qawra on 21 Nov.

**1999:** 1 at Ghadira on 13 Jul, 2 at Lunzjata Valley on 13 Nov, 3 at Simar on most days from 29 Nov to 7 Dec, 2-3 at Ghadira on 2-4 Dec and 1 at Simar on 3 days from 16 to 24 Dec.

#### **Pintail *Anas acuta***

**1996:** 1 at Ghadira from 1 Jan to 24 Feb. Up to 60 on 6 dates from 2 Mar to 5 Apr off Qammieh. 1 at Tas-Safra on 18 Sep; then 1-2 at Ghadira from 11 Oct to 23 Nov and from 11 to 31 Dec. Autumn sightings outside Ghadira: singles at Simar on 5 dates from 31 Oct to 2 Dec, 3 off Ghallis on 6 Oct and 17 off Qawra on 3 Nov.

**1997:** 2 at Ghadira in Jan to 20 February; then 1 till 13 Mar. On passage at Qammieh with 28 on 1 Mar, and in double or treble figures daily from 19 to 24 Mar with max 600 on 22<sup>nd</sup> and 160+ on 23<sup>rd</sup>. 15 at Migra I-Ferha on 22 Mar. Up to 3 at Ghadira on 6 dates from 23 Sep to 27 Oct and 1 at Simar on 16 Nov and from 6 to 30 Dec. In single or low double figures on passage on 12 dates from 16 Oct to 17 Nov, most records from Qawra, max 44 on 17 Oct and 25 on 10 Nov.

**1998:** 1 at Simar from 1 Jan to 11 Mar. 8-50 on 7 dates from 13 Feb to 31 Mar, all from the west coast. 1 almost daily at Ghadira from 6 Mar to 4 Apr. In autumn, up to 11 on 3 dates from 20 to 25 Sep, then 24 sightings of up to 29 birds on 20 dates from 7 Oct to 15 Nov, but 75 at Qawra on 7 Oct, 315 at Qawra and 90 at Tighe' on 7 Nov and 54 at Qawra on 8 Nov. 16 on 7 Dec and 8 on 8 Dec, both from Qawra.

**1999:** Up to 20 on 9 dates from 27 Feb to 7 Apr, all at Qammieh except for 1 at Migra L-Ferha on 26 Mar, but 40+ at Qammieh on 7 Mar. Singles at Simar from 6 to 19 Apr and at Ghadira on 6 May. 4 sightings of 1-2 from 20 to 30 Sep but 28 at Qawra on 25 Sep. 9 on 2<sup>nd</sup>, 2 on 9<sup>th</sup> and up to 18 on 5 dates from 16 to 29 Oct, all at Qawra, but 101 on 25<sup>th</sup> and 94 on 28 Oct. 1 at Simar on most days from 9 to 23 Oct and 1-3 at Ghadira from 21 Oct to 13 Nov.

**Garganey *Anas querquedula***

**1996:** Almost daily sightings from 4 Mar and 26 Apr, with peaks of 225 on 28 Mar and 290 on 3 Apr off Qammieh. 5 at Ghadira on 28 Jul, then 1-4 on most dates from 4 Aug to 27 Sep, all at Simar except 1 at Ghadira on 11 Sep. Latest sighting: 1 at Ghadira on 23 Oct.

**1997:** One at Qammieh on 15 Mar. Then passage daily also off Qammieh from 19 to 24 Mar, max 2000+ on 22<sup>nd</sup>, 460+ on 21<sup>st</sup>, 285 on 23<sup>rd</sup> and 232 on 20<sup>th</sup>. 150+ on 22<sup>nd</sup> were also counted from Migra I-Ferha. 3 other dates in spring: 3 over Blata I-Bajda on 26<sup>th</sup> and 3 at Simar on 28 Mar, and 1 at Simar on 8 Apr. In autumn 17 at Qawra on 23<sup>rd</sup> and 7 at Ghadira on 28 Aug, and singles at Simar on 3<sup>rd</sup> and at Ghadira on 15 Sep.

**1998:** 1-5 at Ghadira from 10 to 28 Mar. In single or double figures on 10 dates at Qammieh from 11 to 29 Mar, but 100 on 18<sup>th</sup> and 113 on 21<sup>st</sup>. Singles at Simar on 27<sup>th</sup> and 29 Mar, at Cumnija on 10<sup>th</sup> and again at Simar on 20 Apr. Singles at Ghadira on 25 Jul and 18 Aug. 1-2 at Simar on 13 dates from 26 Aug to 7 Oct and 1 at Tigne' on 11 Oct.

**1999:** 79+ on 10 Mar and 11-139 on 15 dates from 19 Mar to 7 Apr but 300+ on 31 Mar, all at Qammieh. In autumn, 35 at Qawra on 28 Aug and singles on 4 dates at Ghadira from 3 to 14 Sep.

**Shoveler *Anas clypeata***

**1996:** 1 at Ghadira from 11 Jan to 4 Feb and 2 at Simar on 10 Jan. Then up to 7 at Ghadira from 5 Feb to 8 Apr, and singles at Simar on six dates from 13 to 22 Feb. Singles at Ghadira on 24 Aug and 19 Nov, and off Qawra on 30 Nov.

**1997:** 15+ on 22<sup>nd</sup> and singles on 23<sup>rd</sup> and 26 Feb, and on 5 dates from 2<sup>nd</sup> to 12<sup>th</sup>, and from 14<sup>th</sup> to 28 Mar, all at Ghadira. Passage on 4 dates off Qammieh in March: 43 on 15<sup>th</sup>, 30 on 21<sup>st</sup>, 60 on 22<sup>nd</sup> and 55+ on 23<sup>rd</sup>. Then in single or low double figures on 8 dates from 19 Oct to 10 Dec, max 47+ on 1 Nov, and 44 on 9<sup>th</sup> and 27 on 10 Dec all off Qawra. 1 at Ghadira on most days from 14 Dec till end of year.

**1998:** 1 at Ghadira from 1 Jan to 3 Mar. Then 4 sightings on 3 dates at Qammieh from 21 to 28 Mar, highest 20 on 22<sup>nd</sup> and 25 on 28 Mar. In autumn, 9 sightings on 8 dates from 5 Oct to 10 Nov, all from the east coast, highest 55 at Qawra on 9 Nov, otherwise up to 28. Singles almost daily at Simar from 27 Oct to 24 Nov and at Ghadira from 25-28 Nov. 1-5 at Ghadira from 6-9 Dec and 1-2 on 3 dates from 10 to 26 Dec. 25 at Qawra on 7 Dec.

**1999:** Singles at Ghadira on 2 Jan and 8 Mar and up to 25 at Qammieh on 5 dates from 10 Mar to 1 Apr. In autumn, 8 at Qawra on 20 Sep, 1 at Ghadira on 22<sup>nd</sup> and on 4 dates at Qawra from 22 to 29 Oct, max 30 on 29<sup>th</sup>, otherwise up to 12. Up to 6 on 12 dates at Qawra and Ghadira from 13 Nov to 1 Dec but 10 at Qawra on 23<sup>rd</sup> and 25 Nov.

**Common Pochard *Aythya ferina***

**1996:** Singles at Ghadira on 11 Oct and at Simar from 2 to 15 Dec.

**1997:** Single females at Ghadira on 17 Jul and at Simar on 25 Nov and on 1<sup>st</sup> and 6 Dec. Then 4 off Qawra on 10 Dec.

**1998:** Singles at Simar on 11 dates from 1 Jan to 26 Feb, at Ghadira on 29 Sep and 15 Oct, at Simar from 15 to 23 Oct and at Ghadira and Simar on 8 Dec.

**1999:** 1 at Simar on 4 dates from 27 Jan to 24 Feb, 2 on 22 Nov, then 6 on 1<sup>st</sup> and 1 on 2 Dec, all at Qawra. Singles at Ghadira on 2<sup>nd</sup> and at Simar on 19 Dec.

**Ferruginous Duck *Aythya nyroca***

**1996:** 1-2 daily at Ghadira from 24 Mar till 14 Apr.

**1997:** 15 on 21<sup>st</sup>, 48 on 22<sup>nd</sup> and 5 on 24<sup>th</sup>, all in March off Qammieh

**1998:** 1 at Ghadira from 21 Feb to 7 Mar, 22 at Qammieh on 21 Mar, and 1 at Ghadira on 26 Mar. In autumn, 2-10 on 4 dates at Qawra from 10 Oct to 9 Nov.

**1999:** 14 on 24<sup>th</sup> and 15 on 25 Mar, and 5 on 2<sup>nd</sup> and 2 on 7 Apr, all at Qammieh. 25 on 26<sup>th</sup>, 44 on 28<sup>th</sup> and 16 on 29 Oct, all at Qawra; then 1-2 at Ghadira on 27-29 Nov and 1 at Simar on 3 days from 1 to 7 Dec.

**Red-breasted Merganser *Mergus serrator***

**1996:** 1 at Simar on 1 Dec.

**1997:** 4 at Qammieh on 4 Apr. Singles on 9<sup>th</sup> and 21 Nov, and on 3<sup>rd</sup> and 7 Dec at Qawra, and at Ghallis on 7 Dec. Then 5 at Qawra on 9 Dec.

**1998:** 1-2 at Qawra on 4 dates from 27 Oct to 12 Dec.

**1999:** 2 at Qammieh on 6 Apr. 1 on 6-7 Nov, and 3 on 23rd and 27 Nov, all at Qawra.

**Common Quail *Coturnix coturnix***

**1996:** 4 sightings of singles from 25 Feb to 31 Mar; then up to 10 on 9 dates from 12th to 28 Apr, but a small influx on 18th: max 20 at Dwejra (M). Singles at Qala on 10th and 14 Jun; then 6 single sightings from 7 Sep to 15 Oct.

**1997:** Single at Simar on 11<sup>th</sup>, 14<sup>th</sup> and 17 Jan. Then singles on 3 dates in Mar: at Dwejra (M) on 18<sup>th</sup> and at Simar on 28-29th, and on 5 dates in Apr: at Comino on 1<sup>st</sup>, 2<sup>nd</sup> and 4<sup>th</sup>, at Ta' Gajdoru on 3<sup>rd</sup> and at Dwejra (M) on 15<sup>th</sup>. In autumn singles on 9 scattered dates from 20 Sep to 5 Nov, but 2 on 22 Sep at Bahar ic-Caghak and 4 at Qawra on 12 Nov.

**1998:** 1-3 on 12 dates from 16 Mar to 17 May; then 8 sightings of 1-2 on 6 dates from 2 Sep to 7 Oct, but 13 at Qawra on 25 Sep.

**1999:** Singles on 5 dates from 26 Feb to 15 Mar, then 1-2 on 7 dates from 9<sup>th</sup> to 27 Apr but 6+ at Ta' Gajdoru on 9 Apr. 3 at Dingli on 12 May. In autumn, singles at Buskett on 13-14<sup>th</sup> and at Qawra on 20 Sep and at Ghadira on 1 Nov.

**Little Grebe *Tachybaptus ruficollis***

**1996:** Singles at Simar from 5 Jan till 2 Mar, and from 9 Oct till end of year. 1 at Ghadira on 29 Oct.

**1997:** 1 at Simar on 1<sup>st</sup> to 26 Jan. Then single at Simar and up to 3 at Ghadira on most days from 23 Sep till end of year.

**1998:** 3 at Ghadira from 1 Jan to 1 Mar decreasing to 1 by 7 Mar. Singles at Simar on 3<sup>rd</sup> and 28 Jan; then again singles at Simar on 16 dates from 6 Oct to 30 Dec.

1999: Singles at Simar on 3 dates from 9 Jan to 9 Feb and again on 3 dates from 4<sup>th</sup> to 27 Sep. Singles at Ghadira from 5-7 Dec and at Simar on 24<sup>th</sup> and 26 Dec.

**Great Crested Grebe *Podiceps cristatus***

**1996:** 1 at Ghadira on 19 Mar.

**1997:** Singles at Lunzjata on 12<sup>th</sup> and at Simar on 13 Apr.

**1998:** 1 at Ghadira on 29 Apr.

**Collared Flycatcher *Ficedula albicollis***

**1996:** 1-5 on 16 dates from 5 Apr to 2 May.

**1997:** First single at Comino on 28 Mar. Then almost daily in single or low double figures from 10 Apr to 4 May, max 40+ at Simar on 12<sup>th</sup>, 25+ at Ghadira on 14<sup>th</sup>, and 20+ at Simar on 11<sup>th</sup> and at Ghadira on 15-16<sup>th</sup>, all in April.

**1998:** 25 sightings of 1-3 on 17 dates from 3<sup>rd</sup> to 30 Apr. 1 at Mosta on 10 May. 1 at Wied Il-Luq on 16 Aug.

**1999:** Up to 7 almost daily from 12 Apr to 6 May. 1 at Ghadira on 11 May.

**Pied Flycatcher *Ficedula hypoleuca***

**1996:** 1 on 20 Mar, then almost daily from 5 Apr to 22 May, 1-10 on most dates but 30-40 on 18-19 Apr at Comino. 1 on 16 Aug, then 1-2 on 8 dates from 2 Sep to 3 Oct.

**1997:** First single at Lunzjata on 2 Apr then daily in single or low double figures from 9 Apr to 10 May, but 50 at Qammieh and 20+ at Simar on 11<sup>th</sup>, 40+ at Simar on 12<sup>th</sup>, and 20+ at Ghadira on 15<sup>th</sup> and at Comino on 29<sup>th</sup> all in April. 1 at Buskett on 17 May. In autumn singles at Buskett on 4<sup>th</sup>, at Dwejra (M) and Wied Speranza on 8<sup>th</sup>, at Buskett on 9<sup>th</sup> and at Ghajn Zejtuna on 20<sup>th</sup>, all in September.

**1998:** 1 at Bidnija on 4 Apr, then almost daily from 6 Apr to 13 May in single or low double figures of up to 30, but 40 at Comino on 25 Apr.

**1999:** 1 at Simar on 30 Mar, then almost daily from 13 Apr to 16 May in single or low double figures of up to 25, but 100+ at Comino on 23 Apr. 1 at Ghadira on 18 Sep.

**Wallcreeper *Tichodroma muraria***

**1998:** 1 at Sliema on 28 Sep.

**Golden Oriole *Oriolus oriolus***

**1996:** 1-10 on most dates from 17 Apr to 18 May. 1 at Buskett on 16 Jun, then 1-4 on 8 dates from 31 Aug to 16 Sep.

**1997:** In single figures on most days from 12 Apr to 18 May, but 12 at San Anton and 10+ at Comino on 29 Apr and 17 at San Anton and 10 at Lunzjata on 3 May. Late singles on 31 May at Dwejra (M), and on 7<sup>th</sup> and 15 Jun at Buskett. In

autumn in single figures on most days from 30 Aug to 14 Sep, but 12+ on 6<sup>th</sup> at Buskett and 100+ on 7<sup>th</sup> and 50+ and 14 on 8 Sep at Lunzjata and Buskett respectively. Then 2 at Lunzjata on 20<sup>th</sup>, and 2 at Buskett and 1 at Simar on 27<sup>th</sup>, all in Sep.

**1998:** 3 at Comino on 8 Apr, then up to 6 on most days from 12 Apr to 19 May, but 10 at Lunzjata and 11 at Ta' Gajdor (Xaghra) on 28 Apr, and 10 at Buskett and at Comino on 3<sup>rd</sup> and 6 May respectively. Singles on 6 dates from 30 May to 28 Jun and 2 late birds at Wied Il-Luq on 11 Jul. In autumn, singles at Buskett on 26-27 Aug and at B'Kara on 7 Oct.

**1999:** Up to 8 almost daily in spring from 16 Apr to 17 May. Singles at Ghadira on 26 May, at Buskett on 13 Jun and at Chadwick Lakes on 20 Jun. In autumn, only 4 sightings of singles from 2<sup>nd</sup> to 17 Sep.

#### **Red-backed Shrike *Lanius collurio***

**1996:** 5 sightings of singles on 4 dates from 11 Sep to 12 Oct.

**1997:** Singles at Dwejra (M) on 18 May, at Ghajn Zejtuna on 17 Oct, and at Dwejra (G) on 7 Nov.

**1998:** Singles at Saqqajja on 9<sup>th</sup> and at Comino on 10<sup>th</sup> and 12<sup>th</sup> all in May, and at Ghadira on 13 Oct.

#### **Great Grey Shrike/Southern Grey Shrike *Lanius excubitor/meridionalis***

**1997:** Singles at San Gwann on 13<sup>th</sup> and 18 Feb.

#### **Woodchat Shrike *Lanius senator***

**1996:** Up to 25, mostly at Comino, from 7 Apr to 11 May. 1 at Dwejra (M) on 7 Jun, then up to 5 again there from 8 Aug to 11 Sep. 1 at Ghadira on 5 Sep.

**1997:** In single figures on most days from 11 Apr to 14 May, but 20+ on 21 Apr and 10+ on 5 May at Comino. Singles on 22 May at Ghadira and Dwejra (M). Then singles at Dwejra (M) on 5 scattered dates from 10<sup>th</sup> to 23 Aug, at Kuncizzjoni and Zabbar on 24 Aug, and again at Dwejra (M) on 31 Aug and on 12-13 Sep.

**1998:** Singles at Ghadira on 6<sup>th</sup> and 8<sup>th</sup> and at Wied Qannotta on 9<sup>th</sup> all in Apr, then up to 8 almost daily from 13 Apr to 15 May, but 18 at Blata L-Bajda and 20 at Comino on 28 Apr, and 20 at Comino on 1<sup>st</sup> and 14 May. 2 at Qortin Il-Kbir on 2 Jun and 1 at Buskett on 12 Jul. In autumn, singles on 8 dates from 12 Aug to 4 Sep, but 4 at Dwejra (M) on 15 Aug.

**1999:** 1 on 30 Mar, then up to 12 almost daily from 8 Apr to 15 May, but 15+ at Comino on 29 Apr. Singles on 3 dates from 26<sup>th</sup> to 30 May. In autumn, 1-3 on most days from 22 Jul to 27 Aug, all at Dwejra (M) except for 2 at Rabat on 23 Aug.

#### **Common Starling *Sturnus vulgaris***

**1996:** Up to 500 in Jan-Mar; then 2 at Ghadira till 15 May and up to 16 at Comino. 1 at Buskett on 31 Aug, then regular again from 21 Sep. Mostly in double to high treble figures of up to 700, but 2000 at Marsa on 7 Nov, and 1000 on 29 Dec at Simar.

**1997:** Daily in single, double or treble figures from 1 Jan to 2 Feb, highest 500+ at B'Kara on 5<sup>th</sup>, and 400+ at Ghadira on 17-18 Jan. Then almost daily until 19 March, highest 400+ at Ta' Qali on 23 Feb, numbers going down to double figures in March highest 30+ at Simar on 4<sup>th</sup> and 9 Mar. Then recorded at Comino on several dates in single figures from 28 Mar to 26 April, but 12 + on first date, and on a few dates during summer until 23 Jun, highest 10 on last date. 2 at salina on 24 Jun. 1-2 on 3<sup>rd</sup>, 5<sup>th</sup> and 14 Jul at Simar and 2 at San Anton on 17 Aug. In autumn first singles at Blata L-Bajda on 5<sup>th</sup> and at Dwejra (M) on 15 Sep. Then almost daily from 21<sup>st</sup> to 28 Sep (max 30 at Buskett on 26<sup>th</sup>) and daily from 3 Oct till end of year, in single, double, treble or quadruple figures, max 5000+ over Ta' Gajdor (Xaghra) on 13 Nov, 4000+ at Simar on 21-22 Oct, and 2000+ at Simar on 23-25<sup>th</sup> and 28-29 Oct and 5 Nov.

**1998:** Up to 500 almost daily from Jan to 31 Mar. Up to 10 daily at Comino from 7 Apr to 16 May, but 20 on 13 Apr and 16 on 3 May. Singles at Simar on 5<sup>th</sup> and 20 Apr, and 2 May. In summer, singles at Simar on 10<sup>th</sup> and 25 Jun, and 28<sup>th</sup> and 31 Aug. Then daily from 25 Sep till end of year with up to 1000 on several days from Oct to Dec, but 2000 at Marsa and Simar on 21 Oct, 2000 at Simar on 23 Oct, 1500 at Simar on 12 Nov, and 7000 at Luqa airport on 18 Nov.

**1999:** Single to low treble figures of up to 600 almost daily from Jan to 2 Apr but 800+ at Luqa on 13 Jan. Up to 8 daily at Comino from 15 Apr to 14 May. Singles on 4 dates from 12 Apr to 3 May from other localities. Up to 3 at Simar on most days from 31 May to 14 Sep. 2-5 at Ghammieri from 26 Jun to 6 Jul. Singles at Ghadira on 1<sup>st</sup> and 4 Sep and at Buskett and Simar on 28 Sep., then up to treble figures daily from 1 Oct to end of year, but 1000+ on 25 Oct at Luqa, on 4 dates in Nov (6<sup>th</sup> and 13<sup>th</sup> at Qawra, 15<sup>th</sup> at Luqa and on 29<sup>th</sup> at Simar), and on 6 Dec at Qormi.

#### **Spanish Sparrow *Passer hispaniolensis***

**1996:** Resident and breeding abundantly on the three main islands.

**1997:** Present and widespread throughout the year mostly in double or low treble figures in several localities, highest 500+ at Birkirkara on 5 Jan. Larger numbers at several roosting sites, but no counts were carried out.

**1998:** Abundant and breeding resident on the three main islands.

**1999:** Abundant and breeding resident on the three main islands.

#### **Tree Sparrow *Passer montanus***

**1996:** Resident and breeding in usual numbers but also recorded on migration. In single to low double figures of up to 30, but 80-100 on 1-2 Oct at Simar.

**1997:** Recorded throughout the year in single figures, but 15+ at Simar on 8 Aug, 10+ on 5 dates in Oct (at Buskett on 1<sup>st</sup>, at Simar on 3<sup>rd</sup> and 9<sup>th</sup>, and at Ghadira on 13<sup>th</sup> and 23<sup>rd</sup>), and 20+ at Simar on 2<sup>nd</sup> November.

**1998:** Breeding at usual sites with up to 10 from Jan to May and up to 30 from Jun to Dec, but 40 at Chadwick Lakes on 19 Jul and 80 at B'Kara on 24 Oct.

**1999:** Breeding at usual sites. Highest numbers: 50+ on 21-22 Sep and 45+ on 4 Oct at Buskett, otherwise up to 35.

**Common Chaffinch *Fringilla coelebs***

**1996:** 50-100 on 10 dates in Jan, otherwise in single to low double figures during Jan-Mar, but 51 on 20 Feb and 50 on 8<sup>th</sup> and 41 on 18 Mar at B'Kara. Up to 5 at several sites during Apr-Sep. In single to low double figures of up to 28 during Oct-Dec, but 100 at Lunzjata on 31 Oct and 50 at Buskett on 30 Dec.

**1997:** Recorded throughout the year in single figures, but in double figures on 12 dates, and in low treble figures on 2 dates: highest 130+ at Buskett on 2 Jan, 100+ at Ghadira on 12 Apr, 70+ at Blata l-Bajda on 16 Nov, 50+ at Mosta on 19 Oct, 30+ at Blata l-Bajda on 10 Nov and 28 at Qawra on 2 Nov.

**1998:** In single or low double figures of up to 30 in Jan-Mar, but 40 at Buskett on 1 Jan. Up to 4 almost daily in Apr, but 10 at Blata l-Bajda on 1<sup>st</sup>. 1-2 on most days at Ghadira and Buskett from May to Aug. Singles on 7 dates from 3 Sep to 4 Oct, but 3 at Buskett on first date. Then almost daily in single figures from 10 Oct till end of year, but 10 at Buskett on 25<sup>th</sup> and 15 at Rabat on 28 Oct, and 20 at Buskett on 14 Nov.

**1999:** In single or low double figures of up to 18 from Jan to Mar, but 40+ at San Anton on 15 Jan. 1-2 on most days from Apr to 14 Sep from a few localities. 1 on 5 Oct, then up to 10 almost daily from 21 Oct to end of year but 50+ at Buskett on 10 Nov.

**Brambling *Fringilla montifringilla***

**1997:** 1 at B'Kara on 30 Nov.

**1998:** 1 at Xaghra (G) on 28 Mar.

**European Serin *Serinus serinus***

**1996:** 1-2 on 13 dates from 4 Jan to 11 Apr, then singles at Ghadira on 26 Jun and 24 Jul. 1-2 on 9 dates from 23 Sep to 11 Nov, and 1-3 almost daily from 13th to 31 Dec, mostly at Ghadira.

**1997:** Up to 6 on 6 scattered dates from 1 Jan to 15 Feb mostly at Ghadira. Then singles at Valletta on 28 Mar, at Ghadira on 7<sup>th</sup> and at Comino on 26 Apr, at Simar on 18 May, and at Mellieha/Ghadira on 16<sup>th</sup> and 29 Jun. In autumn in low single figures on 11 scattered dates from 25 Oct to 29 Nov, but 22+ at Blata l-Bajda and 6 at Targa Gap on 16 Nov. 2 winter records: singles at B'Kara on 12<sup>th</sup> and at Ghadira on 25 Dec.

**1998:** 2 at Buskett on 1<sup>st</sup> and 2 at Simar on 4 Jan, and 3 at B'Kara on 17 Mar. Singles at Ghadira on 20 Mar and 2 Apr, at Buskett on 5<sup>th</sup> and 11 Jul, on 3 dates from 2<sup>nd</sup> to 8 Aug and on 2 dates from 26-28 Sep. 1 at Buskett on 18 Oct, then up to 7 on most days from 25 Oct till end of year, but 12 at Sliema on 29 Oct.

**1999:** In single or low double figures of up to 15 on most days from Jan to 7 Mar but 35+ at Blata l-Bajda on 17 Jan. 1-2 on 16 dates from 22 Mar to 10 Aug. 1 on 9 Oct, then up to 3 on 11 dates from 1 Nov to 3 Dec but 15 at Buskett on 10 Nov.

**Greenfinch *Carduelis chloris***

**1996:** Singles on 7 scattered dates in Feb-Apr, but double figures (max 33) on 3 dates at B'Kara from 12th to 19 Mar. Then 2 juvs. At B'Kara on 19 Aug and 1-4 on 21 dates from 30 Aug till end of year.

**1997:** Singles at San Gwann on 3<sup>rd</sup> and at Qammieh on 18 Jan and at Ta' Gajdoru (Xaghra) on 13 Feb. In spring 1-2 on 6 scattered dates from 2 Mar to 5 Apr. One summer record: 1 at Ghadira on 20 Aug. In autumn singles at Mosta on 25<sup>th</sup> and at Buskett on 27 Sep and 10 at Mellieha on 11 Oct. Then in single or low double figures on 17-18<sup>th</sup> and 26-28 Oct, almost daily from 31 Oct to 14 Nov and on 3 dates from 25<sup>th</sup> to 28 Nov, highest 22 (total from 4 localities) on 26 Oct. Then 1 at Simar on 7<sup>th</sup> and 4 at Qawra on 20 Dec.

**1998:** 1-5 on 10 dates in Jan and Feb, but 8 at Buskett on 1 Jan. Then in single or low double figures on 15 dates from 1 Mar to 3 Apr, max 15 at B'Kara on 24 Mar. Singles on 11 dates from 20 Apr to 27 Jul, then 3 at Wied Il-Luq on 16<sup>th</sup> and 2 at Ghammieri on 18 Aug, and singles on 4 dates from 24 Aug to 1 Sep, mostly at Buskett. 1 at Ghadira on 3 Oct, then single figures almost daily from 10 Oct to 28 Nov, but 28 at Qawra on 17 Oct, and 31 at Blata l-Bajda on 1<sup>st</sup> and 10 at Buskett on 14 Nov. 1-3 on 6 dates from 10<sup>th</sup> to 24 Dec, but 9 at Lija on 15 Dec.

**1999:** In single or low double figures of up to 34 on 19 dates from Jan to 14 Apr but 54 at Blata l-Bajda on 24 Mar. 1-2 on 4 dates from 20 Apr to 4 May, and 1-2 on most days at Ghadira from 17 May to 10 Sep but 4 at same place on 12 Jun. 1 at Buskett on 29 Aug. Then 1-2 on 19 dates from 11 Oct to 17 Dec but 4 at Ghajn Zejtuna on 12 Nov.

**Goldfinch *Carduelis carduelis***

**1996:** 1-5 on 5 scattered dates in Jan-Apr, then 1-3 on 16 dates from 12 Jul to 25 Sep, and 1-2 on 3 dates in Nov-Dec.

**1997:** Singles on 16 scattered dates from 13 Feb to 9 Dec (recorded in all months except in May, with 6 records from Ghadira), but 4 at Ghadira on 8 Dec.

**1998:** Singles at Blata l-Bajda on 11 Jan, at Ghadira on 8 dates from 7 Mar to 4 Apr and at Blata l-Bajda on 22 Mar and 2 Apr. 2 at Dwejra (M) on 24 Mar. Singles at Ta' Gajdoru (Xaghra) on 3 Jun, at Ghadira on 5 Aug, and at Rabat on 30 Sep. Then 1-3 on 6 dates from 17 Oct to 6 Nov and 2 at Blata l-Bajda on 24 Dec.

**1999:** 1 at Ras Il-Pellegrin on 3 Apr, 2 at Ghadira on 23 Oct and 1 at Qawra on 3 Dec.

**Siskin *Carduelis spinus***

**1996:** Singles at Comino on 11 Apr, at Buskett on 29 Sep and at B'Kara on 29 Dec.

**1997:** 2 males at Simar on 31 May. Then 2 at Mellieha on 25<sup>th</sup>, 20+ at Qawra and singles at Mellieha on 26<sup>th</sup> and 27 Oct, at Blata l-Bajda on 4 Nov and at Ghadira on 31 Dec.

**1999:** Singles at Floriana on 9 Mar and at Buskett on 2 Oct. 2 at Qawra on 10<sup>th</sup> and 4 at Ghadira on 24 Nov.

**Linnet *Carduelis cannabina***

**1996:** 1-5 on 13 dates from 4 Jan to 10 Apr, but 25 at Qammieh on 16 Mar. 1 on 3 Oct, then on 13 dates from 21 Oct till end of year, mostly 1-4, but 10 on 29 Oct at Ghadira.

**1997:** 6 at Qammieh on 18 Jan and 2 at Ta' Qali on 16 Feb. Then in single figures on 10 dates from 8<sup>th</sup> to 29 Mar, max 5 at Ta' Gajdor (Xaghra) on 18<sup>th</sup>. 2 at Ta' Cenc on 5 Jul and singles at Targa Gap on 13<sup>th</sup> and at Pt. St. Elmo on 27 Sep. Then in single figures on 26 dates (34 localities) from 15 Oct to 26 Nov, but 20+ at Manikata on 25<sup>th</sup> and 20 at Mellieha on 26 Oct, and 30+ at Qawra on 3<sup>rd</sup>, 13 at Ghadira on 7<sup>th</sup> and 13 at Blata l-Bajda on 9 Nov. 2 winter records: 2 at Ghajn Tuffieha and at Ghadira on 30 Dec.

**1998:** 4 at Buskett on 1<sup>st</sup> and 1 at Simar on 17 Jan; then 1-6 on 10 dates from 10 Mar to 4 Apr. Singles at Ghadira on 18<sup>th</sup> and at Comino on 20 Apr. 2 at Ghadira on 31 Aug and singles on 3 dates from 4<sup>th</sup> to 27 Sep. Then on most dates from 16 Oct to 20 Nov in single or low double figures of up to 30, but 54 at Qawra on 28 Oct. Up to 7 on 5 dates from 27 Nov to 24 Dec.

**1999:** Up to 6 on 16 dates from 12 Jan to 30 Apr. Singles on 10 dates from 13 May to 17 Aug. Up to 8 on 20 dates from 22 Sep to 22 Dec.

**Common Crossbill *Loxia curvirostra***

**1996:** 6 at Salina on 6 Oct.

**Trumpeter Finch *Bucanetes githagineus***

**1996:** 1 at Comino on 25 Sep.

**Common Rosefinch *Carpodacus erythrinus***

**1998:** Singles at Mdina on 4 Sep, at Ghadira on 14 Sep, at Rabat on 27 Sep, and at Lunzjata on 18 Oct.

**Bullfinch *Pyrrhula pyrrhula***

**1999:** 1 at Dwejra (M) on 7 Oct.

**Hawfinch *Coccothraustes coccothraustes***

**1996:** 1-5 on 9 dates from 22 Oct to 12 Nov.

**1997:** 1 at Qawra on 20 Dec

**1998:** Singles on 9 dates from 16 Oct to 15 Dec. "A few hundreds" reported on 28 Oct from many parts of Gozo and Malta.

**1999:** 1 at Xaghra Gozo on 10 Jan.

**Yellowhammer *Emberiza citrinella***

**1998:** 1 caught at Xatt L-Ahmar (G) on 9 Nov.

**Ortolan Bunting *Emberiza hortulana***

**1998:** 3 at B'Kara on 28 Apr and 1 at Simar on 2 May.

**1999:** 1 at Luqa on 22 Mar.

**Rustic Bunting *Emberiza rustica***

**1997:** 1 at Lunzjata on 4 Nov.

**1998:** 1 at Lunzjata on 3 Nov.

**Little Bunting *Emberiza pusilla***

**1998:** 1 at Lunzjata on 2 Nov.

**Reed Bunting *Emberiza schoeniclus***

**1996:** 1-3 at Ghadira and Simar in Jan-Feb, with latest sighting on 9 Mar. 1-3 from 14 Oct till end of year, all at Ghadira, Simar, Lunzjata and Salina.

**1997:** One at Simar on 9 Feb. Then 1-2 again at Simar on 9 dates from 28 Oct till end of year and at Ghadira on 11 dates from 1 Nov till end of year. Only one record elsewhere: 2 at Lunzjata on 8 Nov.

**1998:** Singles at Simar on 1<sup>st</sup> and 3 Jan, 7-8 Feb, 10 Feb, 29 Mar, and 22-23 May. In autumn singles at Ghadira on 13 Sep and at Lunzjata on 12 Oct, then 1-2 on most days at Ghadira, Simar, and Lunzjata, from 23 Oct till end of year, but 3 at Lunzjata on 8 Nov.

**1999:** Singles at Simar on 7<sup>th</sup> and 28 Jan and at Ghadira on 27 Mar. 1 at Ghadira on 16 Oct, then up to 3 almost daily at same place from 27 Oct to 17 Dec and at Simar from 5 Nov to 24 Dec.

**Corn Bunting *Emberiza calandra***

**1996:** Scarce resident and breeding in low numbers. Reported in low single figures, but 12 on 27 Oct near Ghadira.

**1997:** In single figures, mostly 1-2, throughout the year in various localities, reaching double figures only on 6 dates: 12+ on 18 Jan at Qammieh; the rest in March, 10+ on 1<sup>st</sup> at Manikata, 10+ on 15<sup>th</sup> at Ghar Lapsi, and 40 on 22<sup>nd</sup>, 20 on 23<sup>rd</sup> and 10 on 28<sup>th</sup>, at Qammieh.

**1998:** Breeding uncommonly at a few sites. Mostly seen in single figures of up to 10, but 13 at Buskett on 17 Oct and 11 at Ghadira on 25 Oct.

**1999:** Breeding uncommonly at a few sites. Seen in low single figures at a few localities, but ca. 10 mainly at Qammieh on several dates in March.

## Bird Ringing Report 1997-1999

compiled by Mark Gauci, Charles Gauci, Joe Sultana & John J. Borg

This report covers the ringing activities of the Valletta Bird Ringing Scheme, run by BirdLife Malta, for the years 1997-1999. During the three-year period under review the licensed ringers were John Attard Montalto, John J. Borg, Denis Cachia, Victor Cilia, Charles Coleiro, Raymond Galea, Charles Gauci, Mark Gauci, Mario V. Gauci, John Grech, Manwel Mallia, Joseph M. Mangion and Joe Sultana. John Middleton, a B.T.O. ringer, also helped in ringing during his regular visits to Malta. Charles Gauci and Mark Gauci, Ringing Secretary and Assistant Ringing Secretary respectively, were responsible for the compilation of the ringing data and for the bi-monthly ringing newsletter.

### Ringing Totals

The ringing totals for the years 1997-99 and the totals for 1965-1999 are shown below:

Year	Number of birds	Number of species
1997	13799	98 + 1 hybrid
1998	11837	109
1999	10234	94
<b>Total 1965-1999</b>	<b>338128</b>	<b>185+ 2 hybrids</b>

Three new species, namely **Great Crested Grebe**, **Eurasian Sparrowhawk** and **Black-tailed Godwit** were added to the ringing list. During the period under review a few very scarce migrants or vagrants were also ringed. These include the 7<sup>th</sup> **Grasshopper Warbler**, the 3<sup>rd</sup> **Blyth's Warbler**, the 4<sup>th</sup> and 5<sup>th</sup> **Melodious Warbler**, the 4<sup>th</sup> and 5<sup>th</sup> **Arctic Warbler**, the 2<sup>nd</sup> **Radde's Warbler**, the 2<sup>nd</sup> **Dusky Warbler** and the 10<sup>th</sup> **Little Bunting**. A hybrid **Barn Swallow x House Martin** (the 3<sup>rd</sup>) was also ringed. The three commonest species ringed were the **Barn Swallow** (4987) a very common spring and autumn migrant, and two very common winter visitors, the **Robin** (4379) and the **Common Chiffchaff** (4167).

### Ringing Sites

The main ringing sites during the three-year period were Ghadira NR, Simar NR, Rabat (M), Buskett, and Lunzjata Valley (G). Other sites used were Targa Gap, Dwejra (M), Wied Dalam, Wied L-Isperanza, Ghajn Zejtuna, Chadwick Lakes, Bingemma and Manoel Island. The Scheme continued to take part in the Italian project *Piccole Isole*, which is aimed at monitoring spring migration in central Mediterranean. BirdLife Malta's ringing site on Comino was again used for this project and the site was manned daily for a whole month, from 16th April to 15th May, each year. Annual visits to Filfla were also organised to monitor the populations of the **Storm Petrel** and the **Yellow-legged Gull**, while the accessible colonies of the **Cory's Shearwater** on the main islands continued to be monitored regularly.

### Recoveries of Malta-ringed birds

42 recoveries (birds recovered at least 5 km away from ringing site) of 16 species ringed in Malta were reported during the three-year period 1997-99. 26 (of 12 species) of these were reported from abroad. One of the most interesting recoveries is an adult **Storm Petrel** ringed on Filfla in 1971, picked up dead during a big storm in the Netherlands. Two young **Yellow-legged Gulls** ringed on Filfla were recovered in Switzerland and Hungary respectively showing that some immature birds spend some of their non-breeding period in central Europe. A **Wryneck** ringed on its spring journey at Comino in May was controlled two years later at the northern part of its breeding range in Finland. A **Yellow Wagtail** also ringed on its spring journey at Simar NR was controlled 14 days later in Poland while no fewer than 8 **Barn Swallows** and 7 **Common Chiffchaffs**, amongst others, were recovered in other European countries.

### Recoveries in Malta of foreign-ringed birds

39 foreign-ringed birds of 22 species have been recovered in Malta and were reported during the three years under review. These include the 2<sup>nd</sup> **European Storm-petrel** from Marettimo Island (Sicily) found dead at Filfla, the 21<sup>st</sup> and 22<sup>nd</sup> **Ospreys** (both ringed in the nest) from Finland, the 1<sup>st</sup> **Marsh Harrier** from Estonia, two **Night Herons** born in Ukraine and Romania respectively, the 1<sup>st</sup> **Audouin's Gull** from Greece, the 2<sup>nd</sup> **Dunlin** from Ukraine and several passerines from various European countries. The most interesting amongst the latter is the 1<sup>st</sup> **Bluethroat** from the Czech Republic, a male **Siskin** ringed in Scotland, and a **Great Reed Warbler** ringed in Seville on its south-bound autumn journey and controlled 4 years later at Ghadira NR on its north-bound spring journey.

### Retraps

Many retraps were reported by ringers during the period 1997-1999. A selected number of interesting ones (84 birds of 22 species) appear at the end of this report. Most of the retraps are either residents, breeding visitors, or winter visitors. But there are also a few migrants using the same migratory route and the same resting/feeding areas. Two retrapped **European Storm-petrels** show that this species may live well over 20 years. The oldest **Cory's Shearwater** appearing in this report was ringed 19 years earlier. A female **Cetti's Warblers** is at least 8 years old while the oldest **Spanish Sparrow** was ringed 9 years and 10 months earlier. Several retraps of breeding and wintering birds show that these are very faithful to their breeding and wintering quarters respectively. A **Great Reed Warbler** and a **Reed Warbler** were retrapped on migration using the same resting/feeding site.

## Birds ringed in 1997 – 1999

## RINGING RECOVERIES

Key to symbols and terms used in the recovery list

**Arrangement of entry**

Recoveries are arranged by species, and within species usually by date of the recovery letter. Ringing details are given on the first line and recovery data on the second

**Ring number**

A ring in italics indicates that the ring has been returned and verified.

**Age code**

- 1 pullus; young bird ringed in the nest. A number in brackets beside this age code indicates brood size.
- 2 fully grown; year of hatching quite unknown.
- 3 definitely hatched during current calendar year.
- 3J** as in 3, but bird still partly or totally in juvenile body plumage.
- 4 hatched before current calendar year - exact year unknown.
- 5 definitely hatched during last calendar year.

**Sex**

- M** male
- F** female.

**Date of recovery**

Where this is unknown the date of the reporting letter is given instead and is shown in brackets. A 00 in the date indicates that the exact day or month are unknown.

**Manner of recovery**

- v** caught or trapped, and released with ring (controlled)
- +** shot or killed by man
- x** found dead or dying
- xA** found long dead
- ( )** caught or trapped alive and not released, or released but with ring removed
- B** breeding when recovered
- C** recovered at colony
- R** recovered in roost
- /?/** manner of recovery unknown.

**Recoveries of Malta-ringed birds**

This section deals with 42 recoveries of 16 species reported during the period 1997-1999. Only those recovered at least 5 km away from the ringing site are included. The co-ordinates of the localities are given only once, when these are first mentioned.

**Cory's Shearwater** *Calonectris diomedea*

## SELECTED RETRAPS

This section deals with a selected number of interesting retraps, which were reported by ringers during the period 1997-1999. Retraps are ringed birds recaptured at the same site where they were originally ringed. These are mainly birds which are residents, breeding visitors, or winter visitors. Occasionally they may also be migrants using the same migratory route and the same resting/feeding areas in the following years. These selected retraps are presented below by species in the categories mentioned above. Ringing and retrap details are given in columns in the following order: **Ring Number, Age/Sex, Ringing Date, Retrap Date, Locality, and Remarks** (giving the time of years and months between the ringing and retrap dates; in the case of winter visitors giving the number of winters after ringing date). Age and sex codes are the same as used in the previous section for recoveries.

## Residents

 104949 2 19.10.92 24.08.97 Rabat (M) 4 years 10 months

## Breeding Visitors

**Cory's Shearwater** *Calonectris diomedea*

FF00463 1M 20.08.84 08.05.96 Hal-Far ringed as pullus and retrapped after 12 years at natal site  
 FF00665 4M 11.06.84 24.06.97 Wied Znuber 13 years (breeding when ringed and retrapped)  
 FF00692 4M 23.07.84 01.07.98 Hal-Far 14 years (breeding when ringed and retrapped)  
 FF00609 4M 23.03.84 22.06.99 Hal-Far 15 years (breeding when retrapped)  
 FF00670 4F 26.06.84 27.06.99 Wied Sansuna 15 years (breeding when ringed and retrapped)  
 FF00153 4M 21.06.80 05.08.99 Filfla 19 years (breeding when retrapped)  
 FF00087 4M 29.05.82 05.08.99 Filfla 17 years (breeding when retrapped)  
 FF00255 4F 07.08.82 05.08.99 Filfla 17 years  
 FF00751 4M 26.05.84 05.08.99 Filfla 15 years (breeding when retrapped)

II-Merill 31 2005

**Yelkouan Shearwater** *Puffinus yelkouan*

EE00505 4 02.02.89 17.02.99 L-Ahrax 10 years

**European Storm-petrel** *Hydrobates pelagicus*

2162912 4 18.06.77 02.07.98 Filfla 21 years

2172460 4 18.06.77 02.07.98 Filfla 21 years

**Little Ringed Plover** *Charadrius dubius* (passage migrant but 1-2 pairs have been breeding at Ghadira NR since 1995)

NR73267 4 M breeding 03.08.95 22.09.98 Ghadira NR 3 years—returning to its breeding site

**Reed Warbler** *Acrocephalus scirpaceus*

(Started breeding at Simar in 1995—it is generally a fairly common autumn migrant but rather scarce in spring)

119591 1 04.07.96 04.07.97 Simar NR ringed in the nest and returned after 1 year to its natal site

119594 3 28.07.96 05.07.97 Simar NR 11 months 8 days—returning to its breeding site

119597 4 28.07.96 05.08.97 Simar NR 1 year 8 days—returning to its breeding site

119601 4 01.08.96 05.08.97 Simar NR 1 year 4 days—returning to its breeding site

ditto 06.06.98 retrapped the 2nd time 10 months later at the breeding site

119647 4 13.08.96 15.08.97 Simar NR 1 year 2 days—returning to its breeding site

ditto 02.08.98 retrapped the 2nd time 1 year later at the breeding site

119442 1 30.06.95 (Salina) 19.07.98 Simar NR ringed as pullus at Salina 3 km away

142380 4 14.06.97 15.08.98 Simar NR 1 year 2 months—returning to its breeding site

**Winter Visitors**

(most of these are autumn migrants but they also over-winter)

**Water Rail** *Rallus aquaticus*

EE00074 5 M 28.01.93 01.01.97 Ghadira NR 3 winters

DN97785 3 F 01.11.95 25.01.99 Ghadira NR 3 winters

**Meadow Pipit** *Anthus pratensis*

120921 2 03.12.94 07.11.98 Lunzjata Valley (G) 4 winters

105986 4 24.02.93 10.02.99 Ghadira NR 6 winters

124982 3 14.11.94 10.03.99 Ghadira NR 4 winters

**Robin** *Erithacus rubecula*

120551 3 06.11.93 28.10.97 Lunzjata Valley (G) 3 winters

ditto 14.03.98 retrapped the 2nd time a winter later

133565 3 18.11.96 28.10.98 Ghajn Zejtuna 2 years later (possibly passing through)

136394 3 15.10.96 17.10.98 Ghadira NR 2 years later (possibly passing through)

133117 2 07.11.95 10.11.98 Ghajn Zejtuna 3 years later (possibly passing through)

135714 3 25.10.95 18.11.98 Rabat (M) 3 years and 1 month

121902 3 31.12.96 21.01.99 Buskett 2 years 1 month (2 winters)

**Common Stonechat** *Saxicola torquatus*

135134 3 F 13.10.95 24.10.98 Lunzjata Valley (G) 3 years later

138734 3 F 04.11.96 23.01.99 Lunzjata Valley (G) 3 winters

**Blackcap** *Sylvia atricapilla*

99114 5 M 18.01.92 02.02.97 Buskett 4 winters

106798 5 M 19.03.93 14.02.98 Buskett 5 winters

89241 4 M 03.03.91 18.11.98 Rabat (M) 8 winters

108603 4 F 14.03.93 05.01.99 Rabat (M) 6 winters

123145 5 M 14.02.95 05.04.99 Ghadira NR 4 winters

**Common Chiffchaff** *Phylloscopus collybita*

9B707 4 25.01.93 09.02.97 Simar NR 4 winters

6E382 2 30.11.93 08.01.98 Ghadira NR 4 winters

9B274 4 30.01.94 08.02.98 Lunzjata Valley (G) 4 winters

2E288 4 20.01.94 22.03.98 Ghadira NR 4 winters

9E238 2 01.11.94 01.12.98 Targa Gap 4 winters

1F409 2 21.12.95 01.03.99 Ghadira NR 4 winters

0F807 2 23.11.95 04.12.99 Lunzjata Valley(G) 4 winters

(12 other Chiffchaffs were each retrapped after 3 winters at Ghadira NR (8), Lunzjata Valley (3), and Simar NR (1))

**Migrants**

**Common Sandpiper** *Actitis hypoleucos*

BV1229 3 07.08.96 23.07.99 Ghadira NR 2 years 11 months

**Kingfisher** *Alcedo atthis* (autumn migrant, but some birds overwinter)

SA75832 3 24.09.96 02.09.97 Ghadira NR 1 year

SA75835 3 M 18.08.97 14.09.98 Ghadira NR 1 year 1 month

**Wryneck** *Jynx torquilla* (autumn and spring migrant but some birds overwinter)

B16936 2 23.10.96 16.10.97 Ghadira NR 1 year

B16981 2 01.01.97 11.10.97 Ghadira NR 9 months

**Reed Warbler** *Acrocephalus scirpaceus* (see note above for this species under Breeding Visitors)

104185 3 19.09.92 22.08.97 Ghadira NR using the same autumn route 4 years 11 months later

**Great Reed Warbler** *Acrocephalus arundinaceus*

B19253 3 F 19.09.97 29.09.98 Simar NR using the same autumn route a year later.
