

Hej ħbieb!
Jien jisimni Batricia.
Illum ħa nkellimkom ftit
fuq il-friefet il-lejl.

Il-friefet
il-lejl ma
jħobbux
ix-xemx. Bi
nhar jorqdu
f'għerien u
postijiet
mudlama.
Joħorgu biss
wara nżul
ix-xemx.

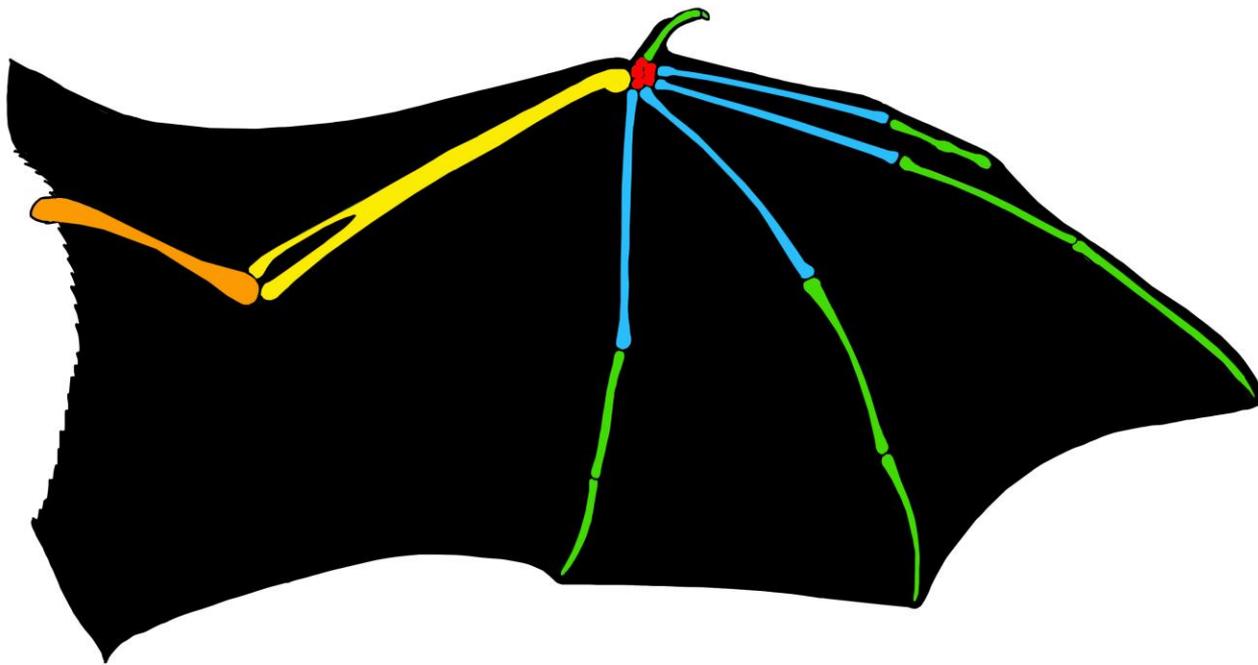

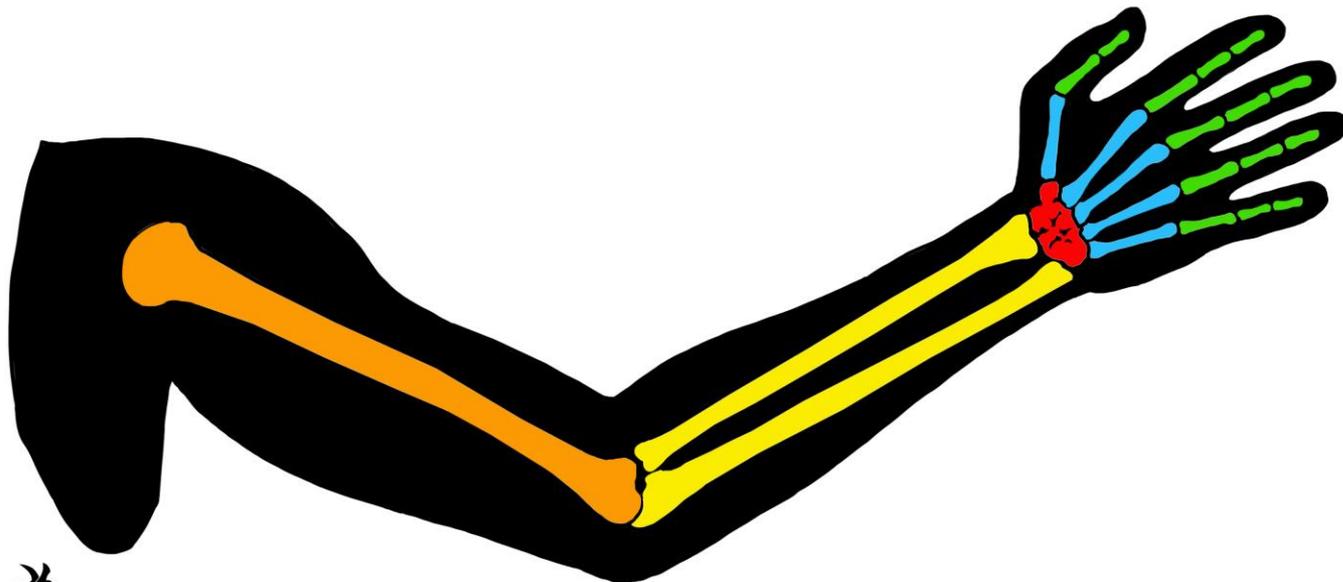

Il-friefet
il-lejl jieklu
ħafna insetti.
Dawn spiss
jaqduhom
waqt li jtiru.
F'lejl wieħed
farfett il-lejl
wieħed
kapaċi
jaqbad **2000**
nemusa!

Biex jaqbd
l-insetti
fid-dlam,
il-friefet
il-lejl jużaw
trikk jgħidulu
echolocation.
Jagħmlu
twerżiq irqiq
u jissemmgħu
għall-eku
mill-insett.

Fil-gwienah
tal-farfett
il-lejl hemm
l-istess
ghadam
bhalma
ghandna ahna
f'dirghajna.
Il-friefet
il-lejl
ghandhom
subghajhom
twal hafna.

Mhux veru
jithabblu
fix-xagħar
tan-nies!

Mhux veru
ħa jigu
jixorbulna
d-demm!

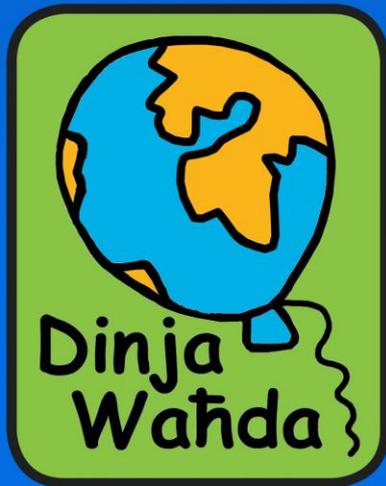

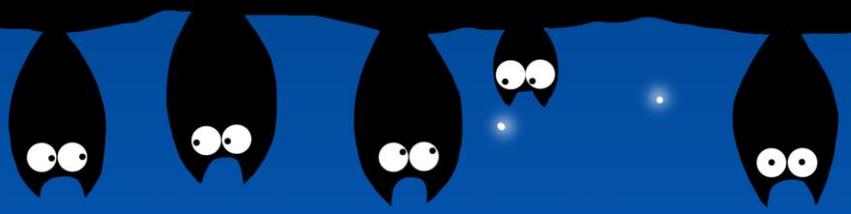

Tajjeb li ma
nibqgħux
nemmu
l-ħmerijiet li
nisimgħu fuq
il-friefet
il-lejl.

Mhux veru
li ma jarawx.
Għandhom
għajnejn u
jaraw, imma
fid-dlam
jippreferu
jużaw
widnejhom.

Ċaw!
